KARAN MAHBOOBANI | Android Developer

Ahmedabad, IN • pingatkaran@gmail.com • +91 9033568854 • LinkedIn Profile • Github

PROFESSIONAL SUMMARY

Results-driven Android Developer with over 7 years of experience in building, and optimizing native Android applications using **Kotlin** and **Java**. Proficient in the **Android SDK**, Android **Jetpack** libraries, and modern architectural patterns like **MVVM** and **Clean Architecture**. Demonstrated success in developing mobile, Android TV, and Set-Top Boxes, with a strong focus on performance optimization and creating scalable, user-centric features. Collaborative team player with extensive experience in **Agile** environments and a solid background in CI/CD pipelines and automated testing.

PROFESSIONAL EXPERIENCE

Consultant | NeoGenCode(Remote), India

January 2025 - Present

- Designed and developed native Android applications using Java/Kotlin and Android SDK.
- Converted client requirements into scalable, user-focused features.
- Integrated APIs and enhanced app performance across Android devices.
- Ensured pixel-perfect UI/UX by collaborating closely with designers and leveraging Material Design and **Jetpack Compose**.

Software Development Engineer II - Android | Accedo TV | Toronto

June 2022 – February 2024

- Architected and developed OTT applications for Android TV and Set-Top Box platforms using Java/Kotlin.
- Leveraged extensive experience with video playback, utilizing Android media APIs like ExoPlayer and MediaPlayer to deliver high-quality streaming experiences.
- Implemented complex Electronic Program Guide (EPG) features with dynamic content scheduling and channel management.
- Developed TV Remote configuration interfaces and customized control systems for improved user interaction.
- Created Picture-in-Picture (PIP) functionality for content viewing experiences.
- Implemented and maintained robust unit testing protocols for Android TV applications.

Android Developer | Techtic Solutions | India

June 2017 – January 2022

- Developed and maintained multiple native Android applications from concept to launch across various industries.
- Applied **MVVM, Clean Architecture,** and other architectural patterns to build scalable and testable codebases with **Jetpack Compose** for building modern UIs.
- Conducted detailed requirement analysis and systematically resolved defects through debugging and root cause analysis.
- Identified and resolved defects through systematic debugging and issue tracking
- Actively participated in an **Agile/Scrum** environment, contributing to sprint planning, reviews, and retrospectives.
- Drove code quality and stability by implementing and maintaining robust unit testing protocols with **JUnit, Espresso** and **Mockk.**

TECHNICAL SKILLS

- **Development and tools**: Kotlin, Java, Android SDK, Android Studio, Android Jetpack (Compose), Hilt, Koin, MVVM, MVI, Clean Architecture, RoomDB.
- **Platforms:** Android Mobile, Android TV, Set-Top Box.
- **Local & Remote Data:** Room DB, SQLite, Retrofit, Firebase (FCM, Crashlytics, Analytics), RxJava.
- **TV-Specific Features**: ExoPlayer, MediaPlayer, EPG, PIP, Channel Sync, DVR, Video Analytics.
- **Performance Optimization**: Memory Management, UI Responsiveness, Power Consumption
- **Testing & Quality**: JUnit, Mockk, Kluent, Espresso.
- **Performance:** Performance Tuning, Memory Management, UI Responsiveness
- **DevOps & Tools:** CI/CD, Git, GitHub, GitLab, Bitbucket, Jenkins, SonarQube
- **Development Tools**: Git, GitHub, GitLab, Bitbucket, Jenkins, SonarQube
- **Project Management:** Agile, Scrum, Jira, ClickUp, Trello

EDUCATION

Master of Computer Applications | Dharmsinh Desai University | INDIA

June 2014 – April 2017

Bachelor of Computer Applications | Sardar Patel University | INDIA

June 2011 – April 2014
